This list was compiled by the Virginia Department of Health's Office of Family Health Services through surveys of all known crisis pregnancy centers and abortion providers in Virginia as of April 2012 and August 2012 respectively. Additional requests to be placed on the listing were received from providers in March 2013. This information is subject to change. Please contact the organization for the most recent information.

- A pregnant woman seeking an abortion in Virginia must undergo fetal transabdominal ultrasound to determine the gestational age of the pregnancy. (§ 18.2-76 of the Code of Virginia)
 - The listed facilities provide, at no-cost, an ultrasound and if feasible, fetal heart sounds.
- Ultrasound services must be provided by trained and qualified medical professionals under the supervision of a physician licensed in the Commonwealth. (§18.2-76 of the Code of Virginia)
 - The listed facilities have registered nurses or ultrasonographers trained and qualified to perform transabdominal ultrasound including providing fetal heart sounds.
 - The listed facilities have supervising physicians that have had ultrasound training and were verified as currently licensed to practice in the Commonwealth.
- These listed facilities report that women are offered the opportunity to view the ultrasound images and if feasible, depending upon gestational age hear fetal heart sounds, and a copy of the written report.
- The listed facilities consented to be publicly listed as providing these services.
